

The Compass

Southern Road Primary School Newsletter

Friday 12th January 2018

Changes ahead!

We are always looking at ways we can improve the children's learning and experiences at Southern Road. We organise many trips, workshops and other experiences to ensure we offer a wide and varied curriculum to all the children. One area we have Identified, that we feel we can improve further is the provision for outdoor learning for our children in Reception. From Monday 15th January works will begin to update this area creating more space and also installing a gate and fence to keep the children safe.

A letter was sent out to parents who have children in Reception earlier this week explaining that there will be some changes to their start and end of day. No other year groups will be affected and we hope to have the work completed by half term.

We look forward to seeing the works develop.

Mr MacGregor
Head Teacher

SPACE WORKSHOP

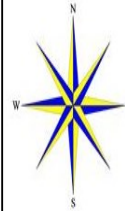

On Thursday this week Reception took part in a space workshop presented by a company called 'Perform For Schools'. The children had great fun learning about the different planets and taking part in storytelling to support their topic.

Southern Road Twitter
