

Online Safety

Social Media

It was brought to our attention this week that a number of our children have social media accounts such as Instagram, Snapchat and Whats app. These sites are not suitable for primary school children.

We do lots of work at Southern Road teaching about online safety in lessons and assemblies. We have also held parent workshops around this subject this academic year.

Parents of children who had these accounts have been contacted and advised to delete them.

The age restrictions for the majority of social media sites are below. If you do decide that you are happy for your child to have these accounts then you must adjust the privacy settings (if you are unsure then please ask a member of staff at school).
